

## CONTRIBUTORS

**Sheel Aditya**, Department of Electrical Engineering,  
Indian Institute of Technology, Delhi, Hauz Khas,  
New Delhi 110016, India.

**Michael E. Baginski**, Department of Electrical  
Engineering, Auburn University, Auburn, AL  
36849, USA.

**George Fikioris**, Rome Laboratory, Electromagnetics  
and Reliability Directorate, Hansom AFB, MA  
01731, USA.

**Claudio Gennarelli**, Dipartimento di Ingegneria  
dell'Informazione e Matematica Applicata,  
Università di Salerno, 84084 Fisciano, Italy.

**Baofu Jia**, University of Electronic Science and  
Technology of China, Chengdu 610054, China.

**Ronold W. P. King**, Gordon McKay Laboratory,  
Harvard University, Cambridge, MA 02138, USA.

**Kazuya Kobayashi**, Department of Electrical and  
Electronic Engineering, Chuo University, 1-13-27  
Kasuga, Bunkyo-ku, Tokyo 112, Japan.

**Jin Au Kong**, Room 26-305, 77 Massachusetts  
Avenue, Cambridge, MA 02139, USA.

**Shoichi Koshikawa**, Department of Electrical and  
Electronic Engineering, Chuo University, 1-13-27  
Kasuga, Bunkyo-ku, Tokyo 112, Japan.

**Leonard Lewin**, 980 McIntire, Boulder, CO 80303,  
USA.

**Weigan Lin**, University of Electronic Science and Technology of China, Chengdu 610054, China.

**Shuzhang Liu**, University of Electronic Science and Technology of China, Chengdu 610054, China.

**T. Naveen**, Department of Electrical Engineering, Indian Institute of Technology, Delhi, Hauz Khas, New Delhi 110016, India.

**Soon Y. Poh**, Beaver Computer Corporation, 1610 Crane Court, San Jose, CA 95112-4201, USA.

**Giovanni Riccio**, Dipartimento di Ingegneria dell'Informazione e Matematica Applicata, Università di Salerno, 84084 Fisciano, Italy.

**Catello Savarese**, Istituto di Teoria e Tecnica delle Onde Elettromagnetiche, Istituto Universitario Navale, via Acton 38, 80133 Napoli, Italy.

**Akiko Sawai**, Department of Electrical and Electronic Engineering, Chuo University, 1-13-27 Kasuga, Bunkyo-ku, Tokyo 112, Japan.

**Vito Speranza**, Dipartimento di Ingegneria dell'Informazione e Matematica Applicata, Università di Salerno, 84084 Fisciano, Italy.

**Michael J. Tsuk**, 66 Iroquois Road, Arlington, MA 02174, USA.

**Melvin M. Weiner**, 56 Marcellus Drive, Newton Centre, MA 02159-2935, USA.

**Tai Tsun Wu**, Gordon McKay Laboratory, Harvard University, Cambridge, MA 02138, USA.

## **ELECTROMAGNETIC WAVES MONOGRAPH SERIES ON PROGRESS IN ELECTROMAGNETICS RESEARCH (PIER)**

The Electromagnetic Waves Monograph Series on Progress In Electromagnetics Research (PIER) publishes review articles and comprehensive papers related to all aspects of electromagnetics and applications. Manuscripts must be in English. The first page of an article should contain the title of the paper, the name(s) and address(es) of the author(s) and the name and the address of the corresponding author.

Headings and subheadings for different sections of the paper (e.g., Introduction, Formulation, Methods, Results, Discussion, Conclusion) should be clearly indicated. Detailed mathematical discussions should be placed in an appendix. Units of measurement, abbreviations and symbols should follow the International System of Units (SI). Equations should be numbered consecutively with arabic numerals in parentheses on the right-hand side of the page.

Tables should be given short informative titles and should be numbered consecutively in arabic numerals. Figures in a form suitable for reproduction should be submitted separately from the text as original reproducible drawings, or as high-contrast sharp unmounted photographs on glossy paper. Lettering on figures should be proportional to the size of the figure to ensure legibility after reduction. Indicate with a soft pencil on the back of each figure the top of the figure by an arrow, and the author and the figure number. All figures and tables should be cited consecutively in the text and a list of captions should be provided at the end of the paper.

The reference section should be used only for references to previous work. Additional information, such as experimental details, etc., should be incorporated into the text. References should be numbered in sequence and cited in the text. Technical reports, memos, unpublished or to be published articles should not be listed; only published work in journals or books should be cited as references. References should contain full title and be listed at the end of the paper in the reference section in the numerical order they appear in the text.

Submit five copies of the manuscript to Chief Editor, J. A. Kong, Room 26-305, 77 Massachusetts Avenue, Cambridge, MA 02139, USA. All contributions will be evaluated by independent referees. Papers should be original and must not have been submitted simultaneously to any other place for publication. Authors are solely responsible for the factual accuracy of their papers. It is the responsibility of the corresponding author to secure requisite permission from his or her employer and all papers submitted are understood to have received clearance(s) for publication.
